Intake & Live Release Combined (Dogs & Cats)

NOTES:

Live Release Rate, as dictated by the Asilomar Accords, the industry standard (see: asilomaraccords.org), is calculated by dividing Total Live Release (adoptions, outgoing transfers, and returns to owner) by Total Outcomes (adoptions, outgoing transfers, returns to owner, and euthanasias).

The Live Release Rate does not include animals that died or were lost in care, animals that were dead on arrival, or administrative transfers.

Source of Intake

Combined (Dogs & Cats)

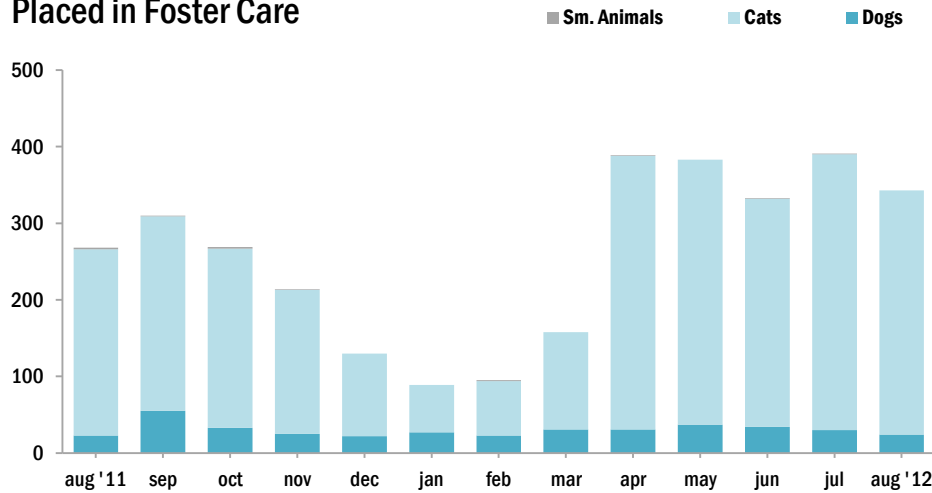

Live Releases

Combined (Dogs & Cats)

Placed in Foster Care

The **Foster Care Program** is one of the many life saving arms of ACCT Philly. The primary reason for foster care is to provide a temporary home for a potentially adoptable animal whose current condition is not manageable in a shelter setting and to alleviate overcrowding. ACCT Philly receives more animals than there is space, and so moving animals into foster homes not only saves them, but also ensures that newly arriving animals have cage space.

Spay/Neuter Surgeries
